\*Codes are derived from the first two characters of Code Wire Tags and assigned to tag coordinators to aid in management and tracking of their usage.

# Releases Too Small/Large

- Here is a list of codes for which the release wts seem improbable. Perhaps there is a decimal place problem?
- 
- release wt = 0.02g and 0.03g, yearling fish at release, release stage = smolt---release wt is way too low
- 054210
- 054211
- 054212
- 
- release wt = 122.19g, subyearling fish at release, release stage = smolt--release wt is too high
- 106973
- 108076
