

# Data Status for 2012 Mark Meeting

Presented by Dan Webb

Regional Mark Processing Center

Pacific States Marine Fisheries Commission

# Outline

- Data Status for:
  - Locations
  - Releases (Includes Marking and Tagging Trends)
  - Recoveries (Includes Reporting Trends)
  - Catch/Sample
- Missing Release Tag Code Issue (Dramatic Improvement)
- Updates to RMPC Web Site

# Locations

You are here: [Home](#) > [News & Data Status](#) > Dataset Load Dates

## Load Dates of Location Data

**Click on Cells for Additional Information**

From CWT Database Load Logs  
By Reporting Agency as of Mon Apr 2 09:54:24 2012

### Process status:

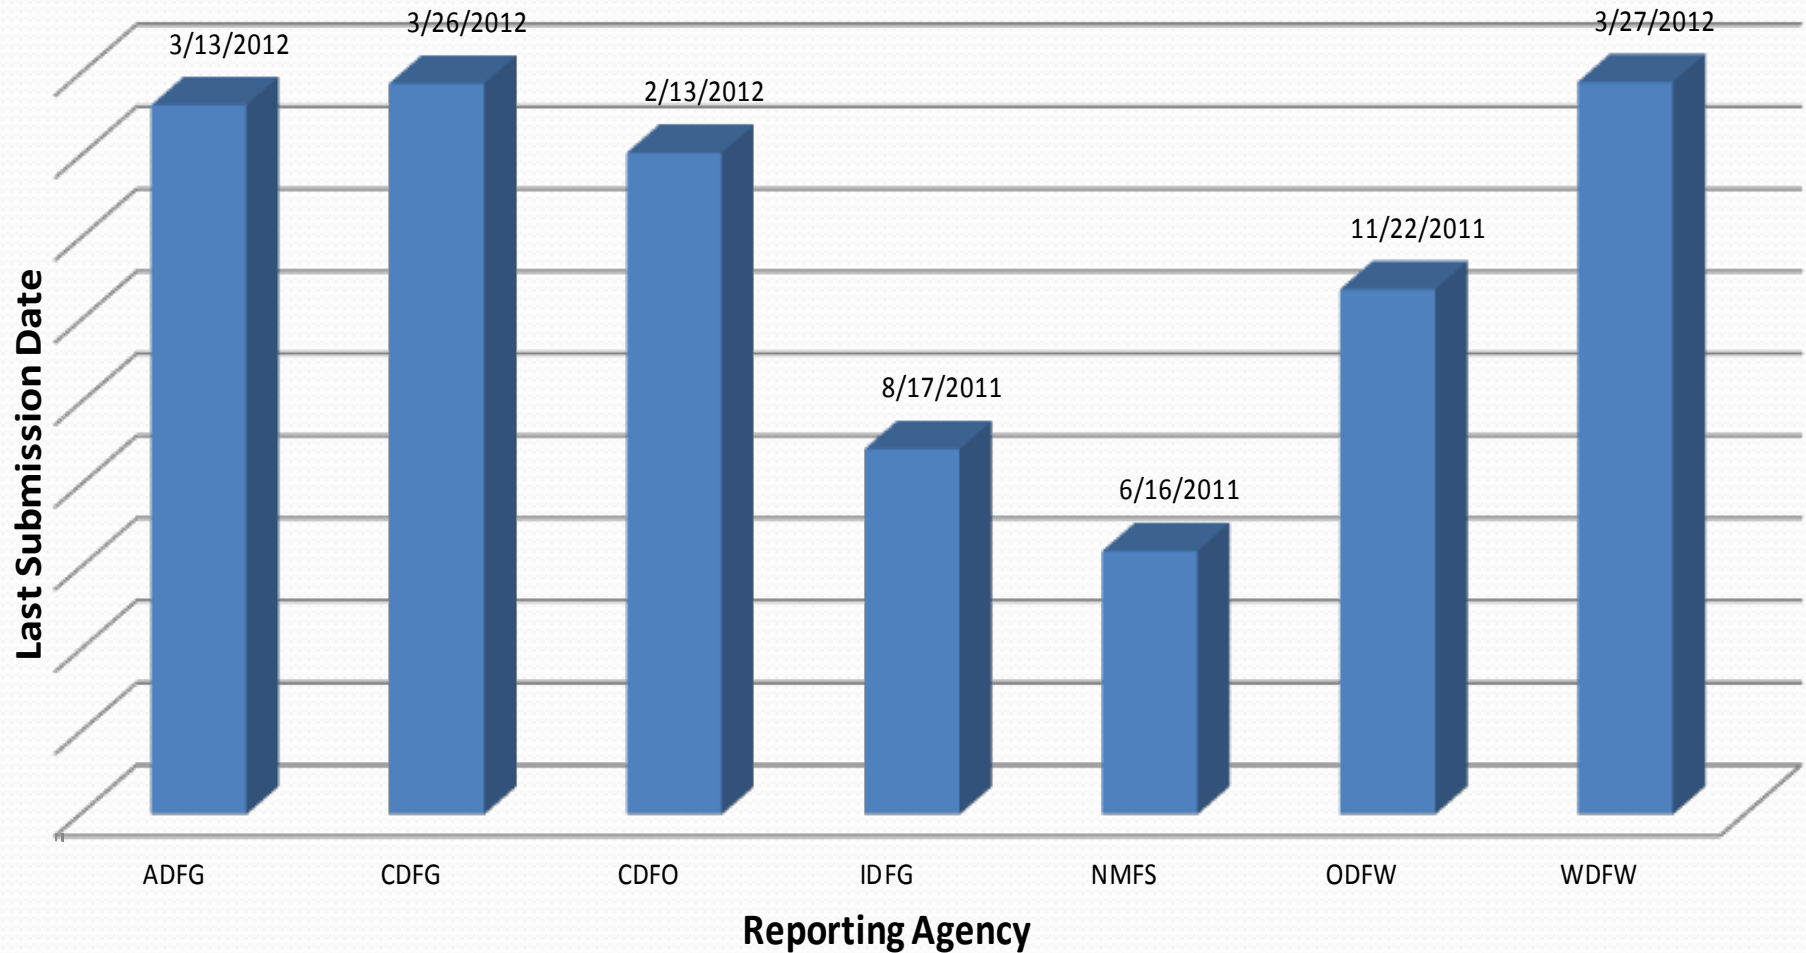

-  = Partially validated
-  = Fully validated/not yet available
-  = Fully validated and available

# Missing Release Tag Code Issue

- Currently 1 Tag Code is reported as missing compared to 10 this same time last year and 50 in 2010
- RMPC starts getting notified immediately after yearly deadline of Jan 31<sup>st</sup>
- Recoveries of a missing tag code can not validate as a tag status “1” until the release is reported
- Most commonly associated with transfers between agencies

# Missing Release Tag Code

- 052599

# Modification to News & Data Status Descriptions

Subsequent descriptions for the same data type with the same submission date overwrite existing descriptions for the same data type with the same submission date.

Introduced 2 exceptions:

- Recovery Run Years & Catch/Sample Catch Years

- Descriptions with first and last date ranges

# RMPC Web Site Updates

- Converted from Joomla to Drupal Content Management System
- Added Reporting Agency Contact List to Publications
- Updated Data Reporting Tools
  - <http://www.rmpec.org/upload-data-file.html>
  - <http://www.rmpec.org/create-description.html>

## Welcome

### Welcome

The Regional Mark Processing Center (RMPC) provides essential services to international, state, federal, and tribal fisheries organizations involved in marking anadromous salmonids throughout the Pacific region. These services include regional coordination of some tagging and fin marking programs, maintenance of databases for Coded Wire Tag Releases, Recoveries, Locations, and Catch & Effort data, as well as the dissemination of reports of these data in electronic or printed form when requested. These databases are known collectively as the Regional Mark Information System (RMIS).

Additional information about the RMPC project can be found in the [Regional Mark Processing Center Strategic Plan](#).

### RMIS Standard Reporting

Query the CWT database and run reports of Releases, Recoveries, Catch/Sample, or Location Codes.

### RMIS Analysis Reporting

Query the CWT database and run Recovery reports based on Tag Code and/or Management Fishery.

### RMIS Catch & Effort Reporting

Query the Catch & Effort database and run reports of C&E (raw datasets) or Location Codes.
